

Press Release

Wezarp Library is now available!

A remote software solution for all Integrated Development Environments

Austin, Texas, August 3, 2015 – APPANDO, currently exhibiting at NIWeek 2015, is pleased to announce the release of Wezarp Library.

Wezarp technology proposes an easy remote solution with no additional development to control or monitor a software application from a tablet, a smartphone or a desktop. It is multi-client, multi-server and multi-window with no limitation of graphical user interface design.

Wezarp Library is composed of a DLL and .NET DLL to insert into any source code for various Integrated Development Environments based on C#, C++, Visual Basic .NET, ANSI C, Java, LabWindows™/CVI software, WINDEV...

In addition, Wezarp technology proposes free client applications for tablets, smartphones or remote desktops to communicate with any software that embed Wezarp Library. Wezarp client applications are free of charge and available for iOS, Windows and Android.

Wezarp Library is available on the Wezarp website: www.wezarp.com

About APPANDO

APPANDO is a startup based in Principality of Andorra developing software applications for computers, tablets and smartphones.

About NIWeek 2015

The 21st annual NIWeek conference presented by NI begins August 3 in Austin, Texas, and once again brings together the brightest minds in engineering and science. More than 3,200 innovators representing a wide spectrum of industries, from automotive and telecommunications to robotics and energy, will discover the latest technology to accelerate productivity for software-defined systems in test, measurement, and control.

CVI, National Instruments, NI, ni.com and NIWeek are trademarks of National Instruments. The mark LabWindows is used under a license from Microsoft Corporation. Windows is a registered trademark of Microsoft Corporation in the United States and other countries. Other product and company names listed are trademarks or trade names of their respective companies.
